

Design Review

What is Design Review by Expert Mark

Design review is simple procedure of “second eye” evaluation of design proposals. We apply our expertise compare proposal to best practices, find missing points, and optionally issue advisories on proposed design.

Design Review Procedure

Procedure could be conducted remotely or on-site after NDA sign off (if required). We review presented High Level Design document and issue report on its compliance to best practices based on our experience.

Duration of the process

Design Review normally takes one to two weeks to finish.
